**Taffy Dietry** has been coming to Doggie Daycare since February, 2017. She is such a sweet, playful pup who

## Daycare Kid of the Month OF THE MONTH

loves playing with her fur-friend, Duncan! Miss Taffy is a 14-month-old, yellow Labrador Retriever. Her favorite activities at home consist of playing fetch and chasing bunny rabbits. She also loves to chew on her antler bones! Taffy always has a blast when she goes to Bow Wow Beach. She loves to swim and play with her fur-buddies! Her best trick is shake and, of course, if you give

her some liver treats she may give you lots of puppy kisses. Taffy is a very happy and affectionate puppy. She loves to get attention. If you mention Doggie Daycare she gets so excited! She really loves her daycare!

## Labor Day SAFETY TIPS

## Happy Labor Day

Labor Day is one of the last hurrahs before the warm, sunny weather is gone and the winter months start to approach us. Some traditional Labor Day festivities and foods can be harmful to our pups, so be sure to keep extra watch and follow the following steps to avoid any disasters!

- Even though September can be considered a fall month, the weather can still be hot. Make sure to provide plenty of water for your pets to ensure they stay hydrated. Look for shady spots they can escape from the scorching sun and keep an eye out for how much time they spend on hot asphalt.
- Normal products that we use daily can be very harmful for pets if ingested. These products, such as sunscreen, bug spray, citronella candles, etc., could result in drooling, vomiting, diarrhea, excessive thirst and lethargy. Never apply sunscreen or insect repellent to your pet if it is not labeled specially for animal use.
- When swimming, life jackets can be life-savers for your pets. If you are boating or even spending time by the water, never leave your pet unsupervised. Get a life jacket to help aid them when they get too tired or even if the tides are too overwhelming.
- Fireworks and pets do not mix well. They can be very frightening for your pet and in some cases pets can run off after being scared by the loud noises. Keep your pets calm and in a safe, quiet place to prevent anything from happening. Have a safe and fun Labor Day!

# Dogtoberfest 2017

Information coming soon...

The Lodge at All Creatures

## TIPS FOR PET-SAFE Celebrations

- 🐾 BBQ table scraps are not good for pets! Keep an eye out for cooked bones, corn cobs, grapes and onions. All the following pose hazards ranging from an upset stomach to a medical emergency!
- 🐾 The weather can cause heat stroke. Always provide cold water and shade for dogs to cool down.
- 🐾 Fireworks can cause anxiety to pets. Make sure to keep pets inside and dispose of any firework materials, they contain poisonous chemicals.
